

# COMPUTER AIDED DESIGN AND DRAFTING

---

## Associate in Science

Career/Technical (Major Code: A2571)

Designed to provide students with the skills and technical knowledge requested by employers using CADD in a variety of disciplines. The program focuses on the development of CADD skills and problem-solving strategies in the development of two- and three-dimensional models. Additional engineering options allow students to acquire advanced CADD skills in areas of special interest.

## Program Student Learning Outcomes

- Construct, modify and print existing drawings to meet industry standards.
- Use provided software to construct and analyze solid models.
- Use appropriate technical material to determine and correctly communicate drawing information.
