INTERNATIONAL BUSINESS

Associate in Science
Career/Technical (Major Code 02038)

Provides a practical approach to the study of international trade topics relevant in today's global economy.

Program Student Learning Outcome

- Explain business ideas, products, delivery methods, and negotiate pricing, costs, and wages.
- Assess various types of information such as cost of materials and product development, cost of shipping, price quotes from vendors and determine which are the best options for a business to make a profit and to remain efficient.
- Work with diverse groups of people as employees and in the larger community and will understand cultural issues and differences and how to work in harmony and understanding with these groups.
