General Description

Social work and human service is an applied behavioral science that emphasizes the application of behavioral science principles in a variety of cultural contexts.

Students take courses in social work and human services to acquire the basic skill set required for entry-level social work positions and to prepare for transfer to complete a baccalaureate degree in social and human services or a similar major. As a profession, social work and human services focuses on methods for helping people from many different social groups improve the quality of their lives.

Career Options

Social & Community Service/Manager, Social & Human Services, Case Manager Assistant, Home Health Aide, Personal Care Aide, Community Outreach Worker.
